About

Taylor is a front end developer and designer based out of Columbus, OH. He predominantly work with CSS (including Sass), HTML, Javascript, and PHP and enjoys helping people solve problems.

Work

Faith Life Ministries

June 2016 – Present

Web Developer

<https://faithlifechurch.org> | <https://garykeese.com> | <https://drenda.com> | <https://openheavenband.com>

Developed and maintained four main websites and subsidiary sites and handled email marketing and analytics across all platforms.

Highlights

- Rebuilt all websites in early 2017 to improve creative capabilities and development of custom content.
- Integrated with Google Sheets to create a content management system to handle administration of church small groups.
- Created multiple livestream sites for church conferences for display and event registration.
- Integrated with Trello to create a dashboard to display status of weekly goals for the creative department.

Fort Worth Star-Telegram

September 2012 - February 2016

Front End Developer

<http://star-telegram.com/>

Maintained and created content for four main websites across editorial, marketing, and advertising departments.

Highlights

- Designed and developed data interactives such as maps, quizzes, charts and polls, including work with the iPad sports magazine, DFW OT
- Assisted in design and development for two long-term group projects: microsites for an international art gallery opening and piano competition.
- Redesigned the Spanish news website, Diario La Estrella.
- Produced "Eats Beat," a weekly podcast on local cuisine and culture.

The Shorthorn, University of Texas

August 2010 - May 2012

Online Editor

<http://theshorthorn.com>

Managed the publishing of stories online and the creation of online exclusive content

Highlights

- Managed and designed data projects including a campus crime map and various interactive applications such as timelines and quizzes
- Designed and developed multiple special section microsites including a photography blog

The Flare, Kilgore College

September 2007 - May 2010

Online Editor / Editor-in-chief

Launched and managed website, which was named the best online newspaper by the Texas Intercollegiate Press Association in its first year.
